SWMS ID: SWMS-008		SWMS Title: Roof Clean	
Prepared By: Chris Foster		Date: 26/06/2026	
Business Name: Tuan Biomass Albioma			
Description of Task: Cleaning of roof of main shed.			
Reason for analysis: ☐ New task/plant ☒ High Risk Task ☐ Change ☒ Regular review ☐ Post-Incident ☐ Contractor (to complete) Task ☐ Non-Routine Task ☐ Maintenance/Repair ☐ Other (specify):			
SWMS Team Names: 1. Chris Foster		2. David Knight	3.
4.		5.	6.
Permits Required: (circle) Confined Space ☐ Isolation ☐ Hot Work ☐		PPE Requirements:  Other:	

SAFE WORK METHOD STATEMENT (SWMS)

Potential Environment Hazards	Fire/Emergency Response Equipment
☒ Noise / vibration ☒ Air pollution – dust / smoke / fume ☒ Spills to ground ☒ Spills to water / drains / waterways ☒ Soil erosion / contamination ☒ Hazards to flora & fauna ☒ Waste generation & disposal ☐ Hazardous chemicals / substances ☐ Vegetation / bushfire risk ☐ Other: _____	☒ Fire extinguisher — Location: Main shed wall ☒ Fire hose / hydrant — Location: Walking Floor, Shavings silo, inside shed ☒ First aid kit — Location: Smoko Room ☒ Spill kit — Location: Inside the North Entry door ☒ Emergency eyewash / shower — Location: Outside the workshop ☒ Emergency assembly point — Location: ☒ Communication method: ☐ Radio ☐ Phone ☐ Verbal ☒ Emergency contact No: 0439 013 224
Hazards Identified	
☐ Electricity ☐ Confined Space ☐ Stored Energy ☐ Extreme Temperatures ☒ Dust and or fume ☒ Hazardous Manual Tasks ☐ Psychological ☐ Traffic/Mobile Plant ☐ Ignition Sources ☐ Lighting ☐ Machinery & Equipment ☒ Person/Object Falling ☐ Pressure (air, water, gas) ☒ Object Falling ☐ Hazardous Chemicals ☐ Hot Work ☒ Other workers/people	
Other Comments:	

REQUIRED CORE SWMS

List the Core SWMS that also apply to this task. Linked Core SWMS must be read and signed on through the online SWMS Register together with this SWMS.

Applies	Core SWMS	Linked SWMS_ID
☐	Isolation and LOTO	SWMS-026
☐	Hot Work	SWMS-005
☐	Confined Space Entry	SWMS-024
☒	Working at Heights	SWMS-025
☐	Crane and Lifting Operations	SWMS-026
☐	Working on Un-isolated plant	SWMS-027

CRITICAL CONTROLS

The following critical controls must be in place and verified before work starts.

#	Critical Control (must be in place before work starts)
1	A Working at Heights risk assessment has been completed and workers are trained and authorised to perform roof work.
2	Roof condition has been inspected and confirmed safe. Fragile roof sheets, skylights and unsupported areas are identified, barricaded or otherwise protected from access.
3	Exclusion zones are established below the work area to prevent persons being struck by falling tools, debris or cleaning equipment.
4	A Working at Heights risk assessment has been completed and workers are trained and authorised to perform roof work.
5	Weather conditions are suitable. Work must not proceed during rain, storms, lightning, high winds or when roof surfaces are wet or slippery.

If a critical control cannot be implemented, work must stop and the SWMS must be reviewed before proceeding.

CONTROLLED MASTER DOCUMENT	
Doc Id: SWMS – 001- 2024-v2.0	Page 2 of 3

SAFE WORK METHOD STATEMENT (SWMS)

Key Steps in Logical Order		Hazards/Risks to Workers or Public	Risk Score	Control Measures	Residual Risk Score
1.	Gain access to roof via ladder by bagger elevator	Falls from height during transition to or from the roof	High	-Fall protection equipment Keep area clear of obstacles	Med
2.	Use rope swing to lift power broom and blowers to roof.	Manual handling leading to musculoskeletal strain.	Med	-Use team lifting where possible	Low
3.	Use power broom to push excess saw dust to edge of shed.	-Contact with moving parts of broom -Noise exposure -Slippery surfaces while working on roof -Airborne dust	High	- Training for power broom use - Hearing and respiratory protection - Adjust handle to operator height - Fall protection equipment (harness + lanyard) - Connected to static line and anchor points - Keep feet area clean while moving	Mod
4.	Use blower to Clean up the any sawdust left.	-Noise exposure -Slippery surfaces while working on roof -Airborne dust	High	- Hearing and respiratory protection - Adjust handle to operator height - Fall protection equipment (harness + lanyard) - Connected to static line and anchor points - Keep feet area clean while moving	Med
5.	Use rope swing lower tools to ground level.	-Manual handling leading to musculoskeletal strain.	Med	-Use team lifting where possible	low
6.	Use ladder to descend the ladder.	-Falls from height during transition to or from the roof	Med	-Fall protection equipment -Keep area clear of obstacles	Low

Add additional job steps, hazards and controls as required

All relevant workers must be consulted during the development and review of this SWMS and made aware of the control measures and all required permits. Worker consultation and sign-on are recorded through the online SWMS Register.

ONLINE SWMS MANAGEMENT

Worker sign-on is completed through the online SWMS Register.

Workers are required to read and sign onto this SWMS once per review period, or sooner if the SWMS is revised, superseded, or changed due to an incident, equipment change, procedure change, legislative change, or risk assessment review.

Before each task commences, the team or person in control of the work must review the SWMS through the online task review system and confirm whether anything has changed from the approved SWMS.

If no changes are identified, the task may proceed once all workers are confirmed as current against the required SWMS.

If changes are identified, the changes and additional controls must be recorded in the online Task Record before work proceeds.

Supervisor review is required where the change affects the work method, plant, equipment, location, hazards, permit requirements, or critical controls.

System of record

This Word document is the controlled master SWMS. The PDF is the worker-view copy. The HTML tablet page is used to view the SWMS and complete the task review.

Worker sign-off is stored in Worker_SWMS_Register. Daily task reviews are stored in Task_Records. Review dates and version status are controlled in SWMS_Library.
